

Wednesday working groups: an eye on convergence for MCC5

Eric, 23-July-2014

10:15-2pm (with a working lunch, as desired) in parallel:

- Reco: Tingjun
Cosmic Removal
ParticleID/Calorimetry
recob::Particle discussion
(concurrently, Shower workshop all week and next, 24/7)
CDF Big Room, or wherever
- Simulation: Matt and Kazu
DiscussionFinal steps for MCC5
settled-upon gain/risetime from studies, field responses in, etc.
noiseFilter(s)
CDF Big Room, or wherever
- Batch Tools: Herb and Yun-Tse and Kazu
Finalize project.py features/testing
Have we gotten by now our requested ART build
What LArSoft build do we want? Is the weekly v02_03_0N suitable?
Gather list of MCC5 fhicl script files.
(Tentatively in Room 163-G)
- Data Production Group: Zarko and Jonathan and Kazu
Run Processing
dB and py scripts
design for SN + triggered streams
(Tentatively in Room 171 E/F AFTER 11:00)
